

Pearrygin Lake Sno-Park Winter Grooming Report

January 13, 2025

The Pearrygin Lake Sno-Park winter trails are provided through a partnership between the Washington State Parks and Recreation Commission, the Washington State Department of Fish and Wildlife, and the dedicated trail groomers of Methow Fatbike. Please respect their time and efforts by being courteous to other trail users, respecting the conditions of use for this trail system, and respecting trail use designations and closures. Enjoy!

The grooming crew got out last night and groomed all of the trails on Lloyd Ranch and many of the trails in Pearrygin Lake State Park. As always, be mindful of any soft sections you encounter and drop your tire pressure or choose other trails if leaving tracks deeper than 1" in the groomed surface. Deep tracks or ruts are very time consuming to repair and require many extra grooming passes. Don't forget to join the fun at the Methow Winter Fatbike Meetup this coming weekend. There's a night ride Friday evening at the Town Trails, riding Saturday morning on the Pearrygin Trails, and Fat and Happy Hour at Methow Cycle & Sport Saturday evening. Details can be found at: <https://www.facebook.com/methowfatbike> or <https://www.methowcyclesport.com/articles/events-and-coaching-pg179.htm>. We'll see you there!

Don't forget, a Washington State Sno-Park permit is required to park in any of the three trailhead parking lots located in Pearrygin Lake State Park and makes this trail system possible. No trail pass is required to use the trails, only for parking. The Sno-Park funds pay for the plowing of trailhead parking, grooming equipment and maintenance, grooming staff, and fuel for the snowmobiles we use for grooming. Sno-Park Permits can be purchased at Partners Mini-Mart, Methow Cycle & Sport, Goats Beard Mountain Supplies, and Winthrop Mountain Sports.

Pearrygin Lake State Park Winter Trails (Sno-Park Permit required to park at Pearrygin Lake State Park trailheads)
