1	Prioritize non-mechanized forms of recreation (hiking, nordic skiing, snow-shoeing) Consider that the Mt. Spokane Nordic ski area is absolutely the best in the state and possibly the whole northwest for snow quality, length of season, and accessibility. We did an analysis of these factors for the nordic ski areas in the Pacific Northwest and graphed these results - Mt. Spokane came out #1. That's why we moved here.	6/13/2024 4:03 PM
2	Having a big groomed and protected cross country ski trail system so close to the city is a huge asset that is not available anywhere else around. The general trail system is also fantastic but the Nordic trail system is such a unique benefit.	6/13/2024 11:50 AM
3	X	6/13/2024 10:28 AM
4	Consider enhanced Nordic trail grooming mid-week or during daylight hours. Consider expanding Nordic trails or provide State support for clearing existing trails not used due to overgrowth. Consider installing water management structures at chronic problem areas on existing Nordic trails	6/13/2024 9:36 AM
5	None	6/13/2024 9:31 AM
6	Please find a way to preserve the natural state of the park as much as possible while still keeping it accessible.	6/13/2024 7:35 AM
7	Limiting access to motorized vehicles both summer and winter.	6/12/2024 5:27 PM
8	With an increase in vehicular traffic due to its popularity, I hope WSP considers infrastructure that supports other modes of transportation (bus, bike, running/walking, etc).	6/12/2024 4:13 PM
9	Keep Nordic skiing alive!	6/12/2024 10:12 AM
10	Thanks!	6/12/2024 7:14 AM
11	It would be nice if we could access the summit for special night events- eclipse , high probability northern lights, etc	6/12/2024 5:38 AM
12	Some really good mtb trails but the more the merrier. A nice flow trail with some jumps would be awesome. A new highway with a little straighter alignment and shoulders would be great, but I suppose that's wsdot job.	6/11/2024 9:12 PM
13	Please! Keep the nordic trails protected!	6/11/2024 8:02 PM
14	Redo Upper 290. Make it a Blue trail so 90 % of the MTB ridders can enjoy the trail. Right now it is the top 10% that can ride it.	6/11/2024 7:55 PM
15	Continue to provide opportunities for public comments. Bear Creek (Linder Lodge) acquisition provides a tremendous opportunity to create a unique gateway to the park.	6/11/2024 7:44 PM
16	Better roads	6/11/2024 7:29 PM
17	Keeping the park less car centric by providing easy alternate transportation to the mountain in all seasons. Possible bike lanes up to the mountain making it safer.	6/11/2024 5:02 PM
18	It's a beautiful place, let's work together to preserve it.	6/11/2024 4:27 PM
19	I love that it is so close to Spokane. having this access is such a resource. being able to have more camping and spots to escape that are so close to town would be great. especially more hiking/running trails.	6/11/2024 3:09 PM
20	Spokane Nordic is an absolute national treasure! We have skied Nordic and downhill - hiked and mountain biked, picked huckleberries...a big part of what we love about living here!	6/11/2024 2:21 PM

	Rangers are great too!	
21	It would be so appreciated if there was a corridor to snowshoe up the alpine ski runs along with the backcountry skiers, for example, on B29 run	6/11/2024 1:36 PM
22	Please expand mountain bike and Nordic ski trails	6/11/2024 1:35 PM
23	Plan for future increased usage by identifying additional trails and trailhead/parking area(s).	6/11/2024 1:14 PM
24	Please consider including education on proper use of the land as part of your master plan. People often don't know "leave no trace" or yielding guidelines. I see off leash dogs often. I see people using rakes to harvest blueberries. I do believe people love the park and mean well, hence my request for education that includes the "why" behind each guideline.	6/11/2024 1:12 PM
25	None	6/11/2024 12:47 PM
26	Please balance all visitor interests while managing for wildlife and climate resiliency.	6/11/2024 11:37 AM
27	Infrastructure support - a) ensure that there is sufficient parking for the downhill area, currently there is a road to upper lodge and condos that people treat like a parking lot rather than a road. At times it is impassible d/t pedestrian traffic. I fear that someone will get hurt. Consider development of the old tubing hill into additional parking or shuttle from expanded parking down by Bear Creek Lodge. b) A visitors center, maps, passes, books, food and perhaps even rentals.	6/11/2024 11:28 AM
28	Need to address the multiuser access to trails with popularity of electric assist bikes More funding for grooming outer trails more often in winter	6/11/2024 11:09 AM
29	None	6/11/2024 10:54 AM
30	Bear Creek Lodge welcome center. Also possible location for a shuttle service during peak summer and winter time.	6/11/2024 10:41 AM
31	Keep it going	6/11/2024 10:06 AM
32	Please, seriously consider limiting automobile access and implement a regularly running shuttle bus system to the trailheads and nordic and alpine ski areas.	6/11/2024 9:33 AM
33	I hike on Mt. Spokane much less than I used to because of dealing with needing to leap out of the way of rapidly descending mountain bikers. It would be awesome if there were some trails that mountain bikers were prohibited from, particularly one(s) that go up the mountain.	6/11/2024 9:28 AM
34	Professional and consistent nordic grooming. Consider 6 days a week.	6/11/2024 9:07 AM
35	Getting your rangers out on ski trails in the winter .	6/11/2024 9:03 AM
36	This park is one of the very best things about Spokane. It needs to be cared for so our kids can enjoy the same wonder and adventure in nature that we had.	6/11/2024 8:56 AM
37	With the growth in popularity of downhill specific mtn. bikes and ebikes and the high speeds the users attain, there are real safety issues for children and the not so nimble enough to get out of their way. Since Evergreen East has all but taken over trails 270 and 140, I feel that trail 110 should be restricted from bikes for the safety and enjoyment of hikers. In 2014 there was a plan to develop some more trails for bikes and then take a look at how things worked out. Remember? I am far from alone in this as most of my hiker / runner friends are tired of being nearly run over by nearly out of control people on bikes. Ebikes have allowed a whole new group of people to access the trails and many of them have no clue about outdoor etiquette. Are these things going to be allowed on the single track trails? They ARE motorcycles after all! I have seen them on the very top of Mt. Kit Carson. Maybe that's why all of the phlox and penstemon has died? To summarise, I would like to see trail 110 closed to bikes and all single track trails closed to ebikes.	6/11/2024 8:47 AM
38	Consider ways that a shuttle could be supported on the mountain. I think some of the trails could already be used as "stops" on a shuttle. Also need parking down by the fire station at base of mountain so people can carpool from there.	6/11/2024 8:41 AM
39	We love taking our family up there to hike, cross-country ski, and berry pick!	6/11/2024 8:39 AM
40	Love what is up there...keep it going!	6/11/2024 8:27 AM
41	The park has opportunities to grow/shift/morph in meaningful ways to serve the current	6/11/2024 8:14 AM

community and the future recreation community. Right now the spikes in park attendance are during peak huckleberry season and when MS 2000 is operating the ski lifts. The mountain can do so much more to provide for recreation as well as be a safe haven for wildlife where habitat is not carved up by other human uses with roads and houses. Synergies exist with neighboring land owners such as IEP, and other conservation minded private timberlands. WA parks staff should dream big when envisioning a new park entrance that meets the needs of the recreating public and can inspire/educate the next generations.

42	As use and popularity of the park increases, there will be increasing conflicts between different types of uses. It will likely be necessary to restrict some activities on some of the trails, in order to preserve the values held by others. For example, fast downhill bike traffic on trail 140 from the saddle has increased significantly. Last time we were there, we were almost run over by five bikers who didn't particularly care that there were hikers on the trail. I've also noticed a dramatic increase in divots on that trail made by bikes (and increasingly, heavier e-bikes) dropping into low places. This creates an increasing cycle that has made parts of the trail into a washboard. These kinds of conflicts are going to increase as more people use the park, and use it for different things, so careful attention will need to be paid to how to manage uses to minimize the conflicts.	6/11/2024 8:12 AM
43	None right now.	6/11/2024 8:08 AM
44	Would be cool to have the Vista house open in the summer with food and beverages like they do in the winter	6/11/2024 7:51 AM
45	Mt Spokane gets people who live in a city outdoors. Even though it's a "park", the amount of people who use it as an "exercising playground" and to reconnect with nature can't be overlooked. Thank you for maintaining the "sport" side of Mt Spokane. During Spokane's long, grey, cold, winters, Mt Spokane's access to recreation in affect helps a lot of locals cope with their seasonal depression, and as a result, boosts their mental health.	6/11/2024 7:25 AM
46	Too many downhill only shuttled bikers. I don't mind trail riders but the shuttle traffic is obnoxiously	6/11/2024 7:14 AM
47	Expand trail systems, continue to protect and preserve what is already established there.	6/11/2024 7:12 AM
48	Thank you for your hard work!	6/11/2024 7:02 AM
49	Our family loves the nordic ski area and all of us--ages 4 to 42--use it most weekends to adventure in the woods and get outside together. Maintaining that trail system, expanding it, improving the infrastructure, and managing the parking as more and more people use the trails is paramount to us. As more people use the mountain, it also becomes important to protect the wildlife and flora that actually belong there (we're the interlopers!).	6/11/2024 6:42 AM
50	My Spokane is a wonderful asset to our area.	6/11/2024 6:24 AM
51	Offer a bus at the bottom of the hill that shuttles people up. Saves congestion at the parking lots	6/11/2024 6:24 AM
52	Road access hours. I would like to be able to enjoy sunrises up at Mount Spokane.	6/11/2024 6:23 AM
53	Recreation has expanded ENOUGH in this park. Allowing the ski expansion was a giant mistake on the part of State Parks because it destroyed hundreds of acres of forest. Enough is enough! Please enforce the leash law.	6/11/2024 6:19 AM
54	Skijoring is a fantastic part of the Nordic program, and should be part of the plan, to continue its availability. The Nordic program is fabulous, and many thanks to the Park, Rangers, and volunteers that keep it going.	6/11/2024 6:14 AM
55	Please continue the great trail grooming and ski patrol.	6/11/2024 5:56 AM
56	I feel that managing sustainable growth is our greatest challenge. Build it and they will come is an apt phrase that could foreshadow overcrowding	6/11/2024 5:47 AM
57	Mt Spokane is a local playground for families and adults alike. Please don't make it so fancy and amenity-laden that it becomes completely unaffordable to the common person.	6/11/2024 5:31 AM

63	Please keep access to the Park affordable.	6/10/2024 10:07 PM
64	A great place to enjoy so many activities for a low price, please do what you can to preserve that!	6/10/2024 9:49 PM
65	Fix the road!	6/10/2024 9:42 PM
66	Its easy to get to, and a great mountain escape, I wish there was more - restaurant, convenience shop to buy food, a shuttle back and forth	6/10/2024 9:38 PM
67	As the population grows more pressure will continue to be placed on Mt. Spokane State Park. I think we need to resist more development because that destroys the beauty of the park and puts more pressure on the wildlife living in and around the park. I believe we should create more parks if the population demands more access as opposed to carving up more of Mt Spokane State Park. As far as the cross country ski area, I think the state should turn the trail maintenance over to a concession like is done in the downhill area. I don't believe the state government should be in the business of grooming. I could speak volumes on this with detailed experience over many years.	6/10/2024 9:38 PM

73	I love that mount Spokane provides areas for all types of activities so everyone can enjoy the mountain. I think a big priority should be to continue to allow for a wide array of activities so more people can be involved and realize how important it is to conserve and protect the mountain.	6/10/2024 9:19 PM
74	Keep use affordable	6/10/2024 9:13 PM

76	I love being on mt Spokane, especially in the winter months	6/10/2024 9:11 PM
77	Nothing else	6/10/2024 9:08 PM
78	Dogs off leash policy needs to be constantly enforced. Limit the expansion of ski hill. Eliminate snowmobiling. Horse manure needs to be addressed because it brings in noxious weeds. Speed limit needs to be strictly enforced... especially during winter season. Selkirk Lodge needs to be open year round. Snowshoeing, hiking and sledding policies on Nordic trails during xc ski season need to be enforced.	6/10/2024 9:07 PM
79	I love the project and wish to maintain open spaces for people to hike, bike, ski, ride, and enjoy the outdoors.	6/10/2024 9:00 PM
80	It was hard for me to think of issues that need to be addressed because I think Mt Spokane State Park is run very well. Keep up the good work!	6/10/2024 8:59 PM
81	More parking for xc ski trails. No private events like weddings at the granite house; that prevents the public from having access.	6/10/2024 8:58 PM
82	It would be nice to have the Bear creek lodge set up for public use and as a show piece to enter the park.	6/10/2024 8:52 PM

Mount Spokane Master Plan June 1 - Additional Comments

86	Changing the sno park +discover pass. I don't want to buy 2 passes, just 1, even if it's a little more pricy.	6/10/2024 8:39 PM
87	Almost all other major ski areas allow fatbikes on their Nordic trails in the wintertime, including the Methow Valley, Schweitzer, and 49 Degrees North. Would be wonderful to have this access for those of us who no longer have the knees for skiing.	6/10/2024 8:39 PM
88	People want to enjoy nature and solitude (when possible.) Beware of overdevelopment and creating an "amusement park" atmosphere	6/10/2024 8:39 PM
89	Provide good access without ruining the outdoor experience	6/10/2024 8:35 PM
90	None at this time.	6/10/2024 8:29 PM
91	The plan should honor and preserve the diversity of wildlife and plants, yet allows for the controlled growth and access to activities that honors that diversity.	6/10/2024 8:28 PM
92	Please grade the road and repair the pot holes.	6/10/2024 8:25 PM
93	It would be wonderful if WSP could work with the state to get the access road leading to the park widened due to the ever-increasing volume of traffic.	6/10/2024 8:23 PM
94	Please keep it accessible and affordable for the people of Spokane to enjoy, keep as much of it as possible natural, and don't overdevelop or turn it into a resort area.	6/10/2024 8:20 PM
95	I hope to see Mt Spokane preserved as it is for future generations. Please keep its budget robust!	6/10/2024 8:19 PM
96	Adding more summer youth programs would be great. Lift assist mountain biking would get a lot of use	6/10/2024 8:16 PM
97	I love Mt. Spokane state park. I have been a mountain biker, hiker, alpine and nordic skier there for most of life. keep it simple and it should be available for many years to come.	6/10/2024 8:12 PM
98	Preserving the silence as a goal	6/10/2024 8:11 PM
99	An updated lodge without going overboard. You can't satisfy everyone.	6/10/2024 8:07 PM
100	Safe crossing from parking across road to Kit Carson;	6/10/2024 8:07 PM
101	Please continue to improve and build mountain biking trails on mount spokane like other mountains have done around the country.	6/10/2024 8:04 PM
102	More Rangers and parades may be needed, especially during peak used times of the park. Most people are fairly conscientious, but there is always a percent of that are going to blatantly disobey the rules by walking on ski trails, having their dogs off leash to hassle, others, Littering or vandalizing, or driving crazy in the main road. I appreciate the hard work of the PARK staff, but a few more hires, possibly combined with more security cameras and various areas may be helpful.	6/10/2024 8:02 PM
103	Love our local mountain. Keep it small, family friendly and affordable!	6/10/2024 7:58 PM
104	The road is in bad shape, limited parking is leading to people parking on the road, and the lifts need updating. More bike trails, including an up trail, are needed on the north east side to minimize conflict between bikers and hikers. Grooming more days will increase groom quality and the number of trails groomed.	6/10/2024 7:58 PM
105	I appreciate the work of volunteer groups, including Friends of Mount Spokane, and Spokane Nordic Ski Association. The Rangers also do an outstanding job year-round with the little resources they have – cheers to them! I am in favor of eliminating motorized travel, including snowmobiles in the winter, off the Mt Spokane road. There should always be a sign in the Winter advising people that they must have winter tires and Chains. In addition, this should be enforced with ticketing for people who have obstructed the road with a poorly prepared vehicle if educating them does not work.	6/10/2024 7:54 PM
106	Hopeful that there will be no more clear cutting of trees up there.	6/10/2024 7:53 PM
107	the use of the vista house is priced out of range for everyone except a large group who can raise funds.	6/10/2024 7:50 PM

	as well? No cost other than a parking pass.	
109	Preserve the land! Don't build more structures! Keep hiking trails and Nordic trails. Employ more staff and pay park service staff higher wages- we are grateful for all they do!	6/10/2024 7:48 PM
110	Grooming when snowfall dictates , day or night.	6/10/2024 7:47 PM
111	Limiting the costs for entry fees both for the Discovery Pass and Sno Park passes, so all incomes can still access the park. Possibly add shuttle/bus service to help with traffic.	6/10/2024 7:47 PM
112	I hope that we focus more on the non motorized sports at Mt Spokane. There are many better places to ride motorcycles or snowmobiles but Mt Spokane has some of the best XC skiing in the PNW. Also the Mt biking is unique and awesome. Snow shoeing is also some of the best in the area.	6/10/2024 7:44 PM

115	Hi, I would like to back country camp in Mount Spokane. Why is dispersed camping not allowed? What would it take to make it manageable?	6/10/2024 9:53 AM
116	I'd love to see single track along the xc ski trails maintained for easy mtn bike touring & trail running. It's usable now, but there are enough washout and ruts that one can't go fast. The whole width of the trails doesnt need to be maintained - just a usable single track path along the grade. Perhaps Evergreen would help, though it seems most of those ppl only ever want to see hard core downhill areas. Same goes for forest roads I bike from the bottom of chair 3, around the mtn below ch 4, and up to Kit Carson Rd. A great loop, but lots of ruts.	6/9/2024 7:13 AM
117	It would be great to give snowmobiles more access to the north, and keep the snow shoe and x-country skiers to the south.	6/8/2024 9:11 AM
118	The parking for the nordic center could be increased	6/7/2024 3:52 PM
119	Thinning of forests to help grooming operations and debris from windstorms	6/7/2024 1:36 PM
120	I am support of a plan that considers all user groups, including motorized and non motorized for both winter and non-winter sports.	6/7/2024 1:18 PM
121	Please understand, I've been a volunteer Ski Patrol for over 30 years and have owned a condo for over 20 years. We are locals. We love our mountain and we love the people on the mountain, but we see that the state park money is not being spent on the biggest users of the mountain. The ski area is very generous with their money and time. The parking lots are disaster and that is not the fault of the ski area. The "natural forest area" is also a disaster and very close to just going up in flames. Last year, the mountain was evacuated and very nearly turned into ashes . This should be a wake up call to all, clean out and manage the natural Forest area. Thin out the ski areas! Otherwise, when the fire hits Mt Spokane, nothing will be left except for ashes. Please listen to the experts on this. I've been volunteering at the Oregon Road Fire for the past several months, and it's been a very humbling experience. Please, let's not repeat the fire season we had last year! Thanks for listening. Joseph Ferraro	6/7/2024 10:33 AM

123	Be considerate to all snow park users. I have noticed less towards the snow machine riders. Always take all park users in consideration	6/6/2024 8:42 AM
124	adding biathlon to nordic area would be phenomenal	6/6/2024 8:10 AM
125	I really like Mt Spokane for snowmobiling, just wish there were more trails to make a longer ride. We typically like a 50 - 60 mile day and that's not possible at Mt Spokane without doing the same loop more than once.	6/6/2024 6:53 AM
126	Mr Spokane should be available for all activities both summer and winter. Horses, hiking etc. Please keep the cost low for all individuals and families.	6/5/2024 10:41 PM

128	Looking forward to year round use (esp camping) at the newly acquired lodge	6/5/2024 9:02 PM

Mount Spokane Master Plan June 1 - Additional Comments

130	A four season lodge that could host weddings, host summer events, service the Nordic community would be AMAZING!	6/5/2024 6:24 PM
131	Thank you!!!!	6/5/2024 1:38 PM
132	The hiking trails are great, so keeping them up and adding more resources to know what's available and what is clearly marked is a worthwhile initiative.	6/5/2024 8:00 AM
133	The Kit Carson Loop Road provides great picnic and camping opportunities easily accessed by automobile.	6/5/2024 7:35 AM
134	Make Bear Creek a place to stop for lunch and a visitor center with a museum with more bike trails.	6/5/2024 5:24 AM
135	None	6/4/2024 9:20 PM
136	Nordic community has outgrown current lodge/ parking. Make the Nordic lodge/ staging area/stadium one that reflects world class trail system that we have. Including food and rentals (fitness fanatics trailer was a great start).	6/4/2024 9:12 PM
137	Can we look at adding in faster chair lifts and more chair lifts	6/4/2024 8:58 PM
138	Continue to work hard to preserve this wonderful ski resort.	6/4/2024 8:33 PM
139	Develop snow making ability	6/4/2024 6:36 PM
140	Provide numerous opportunities for people to throw away their trash. Use drain tile to channel streams away from Ski areas	6/4/2024 5:41 PM
141	The road between the snowmobile parking lot and the ski resort is incredibly dangerous. There are large chunks of asphalt all over along with pot holes that will take out a small car. This needs to be fixed ASAP.	6/4/2024 5:39 PM
142	Crowd and parking management; Pave the upper road, summit cut off to ski hill!; turn Bear Creek into a welcome center with basic necessities for sale (hand warmers, merch hats, protein bars, espresso stand, etc.)	6/4/2024 5:19 PM
143	Supporting on site ski rental for nordic area. Individual ski pass instead of present parking pass to generate more funds for the area.	6/4/2024 5:07 PM
144	Feel so fortunate to have Mount Spokane State Park in our backyard	6/4/2024 5:02 PM
145	The snowmobile trails are the only true trails that all groups can use. Snowmobilers, skiers both Nordic and Alpine, fat tire bikes, and snow shoe folks can all use these trails. Consideration should be given to providing more shared trails for this use. Considering providing better access to Mt Kit Carson and providing an off trail riding area. Look at opening a loop from chair 4 up to the condominium area.	6/1/2024 11:29 AM
146	Re-pave road from saddle/snowmobile parking lot down to condo road.	6/1/2024 10:46 AM
147	Improve the road between the Nordic area and the ski resort. Revive old XC Mt Bike trails on the Nordic side	6/1/2024 9:14 AM
